## CSI Columns v9.1.2 windows 7.5

[Download](#)

CSI Column - PC - Windows 7 - Uninstall - CSiCOL - Version 8.3.2 - 8.3.3. Sistem Csi column v8.4.0 keygen. Unzattemptiello Il v8.4.0. e. Removing hotfix: Dr. Siegler, I know that the analysis tool support tooling versions are from the Csi Column 8.2.0 Release 20203. Turns out I did use that installer found in the installer download file. I will remove the download and then uninstall this program. Thank you for finding this out. A: I removed the 8.4.0 and it works perfectly after it. I removed all the files linked to it and that solved the problem. Q: Scraping info from simple html table I am building a python script that scrapes some info from a table on a webpage. I want to use this info: GENERAL INFORMATION Category Sub category Video name Duration Availability (day/night) Price I want to get this info from this simple html table which contains the info I want. I have read other similar questions but none of them had an answer. Here is the website example: Just take a look at the table and follow the links on the right to see the content. I have tried BeautifulSoup with no results. I also tried to convert the HTML into a JSON string but no success. I hope some one of you can help with this. 

```
import requests from bs4 import BeautifulSoup url = " response = requests.get(url) soup = BeautifulSoup(response.text, 'html.parser') table = soup.find('table', attrs = {'class': 'foreste'}) rows = table.find_all('tr') for tr in rows: cols = tr.find_all('td') print(cols[0].text
```
