

I used these steps for Windows 10 Pro. If you have a different operating system, your steps may be slightly different, but hopefully .

- 1 Download and install Microsoft Visual C++ 2010 Redistributable Package x86. This will install automatically when you're ready to install, if you don't, you'll just need to click Install Now.
- 2 Open command prompt as administrator.
 - 2a Enter this on the command line: `cd ~` (where ~ is the path to the current directory)
 - 2b Enter this installation path: `C:\\Program Files (x86)\\Microsoft Visual C++ 2010\\vcredist`
- 3 Press the enter key.
- 4
