Raceway Design Tools Raceway Router Raceway Design Tools Bentley Substation 11.01.10.4 Raceway Design Tools The software includes a worksheet template that covers the design and layout of a Typical Raceway. The Raceway Type tool enables you to select the type of raceway that you want to create. You can choose from a variety of types including Braid, Safety, Wet, Dry, and Road. The Raceway Planner tool enables you to create a raceway. Here you can select either a "cut-off", "bent" or "straight" plan and can also select the angle that you want to use for the sides. In the "straight" raceway type, you can also set the degree for which sides of the raceway are parallel with the layout. The resulting product is a raceway with the chosen angle that you have defined.
